

LEARN DSpace as a Service

Service Request Form

LEARN DSpace as a Service is provided as a central publication workflow management system, with individual access granted to each department for managing and depositing their publications. Separate DSpace instances are not provided but a workspace from the central system is provided for each departments for production use. Workspace for testing/temporary use are not provided. The DSpace service runs on LEARN FOSS HA cloud infrastructure and comes without a Service Level Agreement (SLA), but is maintained on a best-effort basis by the LEARN engineering.

All the LEARN FOSS services can be accessed from anywhere as long as you are connected to the Internet. The major local ISPs currently provide free data for accessing LEARN FOSS services when you access them from your private Internet connection.
